Gator Heating & Air - Clean Air

Let us explain the importance of clean air in your living environment as well as the simple solutions Gator Heating & Air recommends.

Airborne Disinfection

Airborne infectious diseases are one of the most serious threats to health related to HVAC equipment. In settings such as hospitals, clinics, yoga studios, elder care and veterinary facilities airborne pathogens can be spread by the air system threatening the health of patrons and exposing facility owners to liability risks. Fortunately Fresh-Aire UV has a solution. Our Airborne Disinfection System equipped with high-output UV-C lamps kills airborne pathogens 24/7.
