

Supply Chain Finance Simplify Processes with CredAcc's No-Code Technology

For [Supply Chain Finance](#) lenders, CredAcc's no-code LOS and LMS platform offers an innovative solution to automate loan origination and management. The platform's drag-and-drop configurator enables rapid customization of onboarding, credit evaluation, loan approval, disbursement, and repayment workflows without technical skills. ERP integration ensures access to real-time supply chain financial data, improving credit decisions and portfolio oversight. Compliance and audit tools embedded in the platform reduce regulatory risks and operational errors. Banks and NBFCs adopting CredAcc can improve efficiency, reduce turnaround times, and scale SCF lending profitably. Book a demo to discover the benefits.
